LOBA CHEMIE PVT. LTD.

- ⊗ **Superior specialized formula for critical hand hygiene**
- ⊗ **Provides broad-spectrum activity against microorganisms**
- ⊗ **Recommended formulation by WHO**

Improve the quality and performance of your current hand hygiene techniques with our L-Hygiene Range of advanced hand sanitizer and disinfectant. Various variants with active ingredients like 75% isopropyl alcohol, 80 % ethanol and chlorhexidine gluconate with ethanol is available. A gentle push on the pump releases the required amount of L-Hygiene which can then be massaged into the hands until dry for the most effective performance. Suitable for any work environment from the front desk of an office through to hospital wards and places of food preparation, this hand sanitizer and disinfectant reduces the risk of cross contamination while leaving behind no residue or odour with a unique fresh refreshing fragrance.

There are many proved benefits of using hand sanitizers one of them is better health and keeping the spread of micro-organisms under control. Hand Sanitizers improve your cleanliness and your health meaning less illnesses spread.

Compared with other sanitizers available in market L-Hygiene is accessibly-priced and possesses a great range of unique features that a hand sanitizer and disinfectant should have to give you the protection that you need.

Other Features*

- Kills 99.99% micro-organisms
- 5x Sanitizing Strength
- Unique fresh refreshing fragrance.
- Manufactured in FDA approved facility
- Evaporates quickly for effective results
- Gentle on skin and does not cause dryness
- Non-greasy formula
- No need for water, perfect for the car, office or workplace and home
